Hippocrates's Quote

"It is more important to know what sort of person has a disease than to know what sort of disease a person has."
commonly attributed to Hippocrates (460 B.C.E. – 377 B.C.E.)

---

1. What is the main point of the quote? Please rewrite it in your own words.

2. Do you agree with its perspective/theory? Explain and support your answer by giving at least one example from your own experience or observation.

3. What can you tell about Hippocrates based on the information?
