

Two Ways of Showing

Research Pair Names: _____ and _____

Research topic area (circle one): depression or bipolar disorder

Instructions: Two of you will research and gather reliable and accurate information on your topic, and report your findings in two different formats. Use the table below to record your research sources and findings.

1. What is your assigned research topic area (circle one): depression or bipolar disorder
2. List the websites used for your research:
3. Summarize your findings on causes, symptoms, and treatments:
 - Causes:

 - Symptoms:

 - Treatments:
4. Discuss with your partner two or three key ideas that both of you find important to communicate based on what you learned from the graphic panels from Marbles and from the MedlinePlus and National Institutes of Mental Health websites.
5. Work together and write a paragraph (3–5 sentences) that communicates your key ideas:

Two Ways of Showing

6. Use the drawing box below to illustrate your key idea paragraph above without using words. Feel free to express yourself using figurative or abstract art. You will not be evaluated on your artistic skills. You will be evaluated on how well your drawing communicates your key idea.

Key Idea Drawing

7. After completing the written and drawn summary, answer these two questions:

I think that a written description is best at _____

because _____

I think that a written description is best at _____

because _____
